We

paint!

It's our passion,
it's what we do...

The secret to our success?

That's easy;
our people.

Everybody is somebody at Leighs Paints. There are no restrictions on creativity and ambition; in fact every member of the Leighs Paints' team is actively encouraged to think 'outside of the box', to push themselves and ultimately the business to new levels, so that together we are the best at what we do.

This unrivalled culture creates an innovative and productive atmosphere, where colleagues have the freedom and confidence in their job to deal with enquiries promptly and with conviction.

There are many benefits working in such a free and open environment, we have fun and enjoy what we do, but at the same time are hard working and conscientious of our corporate goals.

We believe it's not how much we do in a day, but how much we love doing what we do that makes the difference.

It's the Leighs Paints' way.

Duncan
Information Technology

Too good to be true?

Sure, this all sounds great, but how do you know that Leighs Paints really walks its talk? Well the proof as they say is in the pudding.

Good listeners

Talk to us, we listen. In fact we listen to everything our customers have to say, which is why our bi-annual customer satisfaction surveys are held, to establish areas in which to help you even more than we do already. Tell us about the aims and ambitions for your project, let us know what results are required, and then we can recommend the best coating solutions.

Pushing boundaries

Our onsite, world class research and development facility provides us with the opportunity to be pioneers; to push the boundaries and develop new products fast. Our established test facilities mean we don't necessarily have to take the first option; allowing us to offer high end results, rapid turn around and high quality products which ultimately work for you.

It's not just about paint

Yes we produce paint, but that's not where it ends!

We have specialist teams of dedicated people on hand to help you with every aspect of your project. Whether you need the expertise of our Supply Chain team or Technical Service department, to help and guide you in critical times; or you need the assistance of our unique team of structural engineers - the Fire Estimation and Engineering team - Leighs Paints really do go the extra mile.

Why don't you pop in to see us next time you're in town, the kettle is always on and we would love to show you around so that you can see our difference for yourself.

Tim
Supply Chain

Working with you

We make it our mission to get to know you. We won't just take your order and leave you to it, quite the opposite in fact! We develop long lasting relationships and a deep understanding of your needs, which ultimately allows us to exceed your expectations.

Our customers return to us time-after time, which is testament to our unique way of doing things. If you're happy, we know we'll be seeing you again - and that makes us happy too.

... to a **bright future**

We like to be different, to challenge the norm and push the boundaries of what is usually expected of a paint manufacturer; it's what makes us stand out from the crowd, and it's what will sustain us into the future.

As our unique culture lives on within future generations of the company, we will continue to develop and produce world class protective coatings which exceed customer expectations.

To put it simply, **we love** what we do,
always have and **always will.**
