

# Delivering Solutions

## Our Mission:

To establish Aramis as a leading supplier of Operations Assurance and Asset Management, Support & Optimisation Services for the Oil & Gas, Petrochemicals, Energy and Process related industries through delivery of innovative, effective solutions and by creating value for our customers throughout the life-cycle of their assets.

### ▲ Understanding Your Needs, Managing Interfaces

Thorough analysis of client requirements followed by detailed planning and execution are the hallmarks of all our projects. An in-house Integrated Management System ensures the quality and reliability of our work and a culture of positive teamwork among our specialists results in smooth interfaces between client, partners and subcontractors to deliver successful turnkey solutions.

### ▲ Sharing Ideas, Ensuring the Future

At Aramis, we recognise the long-term benefits of securing knowledge within an organisation. Our teams work with your personnel to ensure that knowledge learned is knowledge retained and cascaded through each project to the next. Clients also benefit from our proven methodologies, developed as part of a continuous improvement process.

### ▲ Enhancing Productivity, Maximising Returns

We adopt a comprehensive and structured approach to carry out reviews of current asset performance to identify opportunities for cost savings, production enhancements and for increasing plant availability and uptime. All of this is achieved while ensuring the integrity of the asset, safety of the people and preservation of the environment throughout the life cycle of the asset.

### ▲ Recognising Value, Retaining Competence

People are key assets to Aramis and particular emphasis is placed on attracting, developing and retaining critical competence within our organisation. Our personnel are selected on the basis of their technical expertise, adaptability, international exposure, understanding of local cultures and ability to transfer knowledge.

## ▲ EXPERIENCE

Aramis is an international group of companies comprising a team of senior professionals with extensive experience in the oil, gas and petrochemical and energy industries. This track record has been gained through in-depth involvement in international projects around the world.

## ▲ EXPERTISE

From operational headquarters in Malaysia and a network of engineering offices and bases throughout Europe, Asia and the Middle East, Aramis offers unparalleled management expertise and technical know-how to international operators and contractors. This expertise spans the full range of operations assurance services required to execute projects in all sectors.

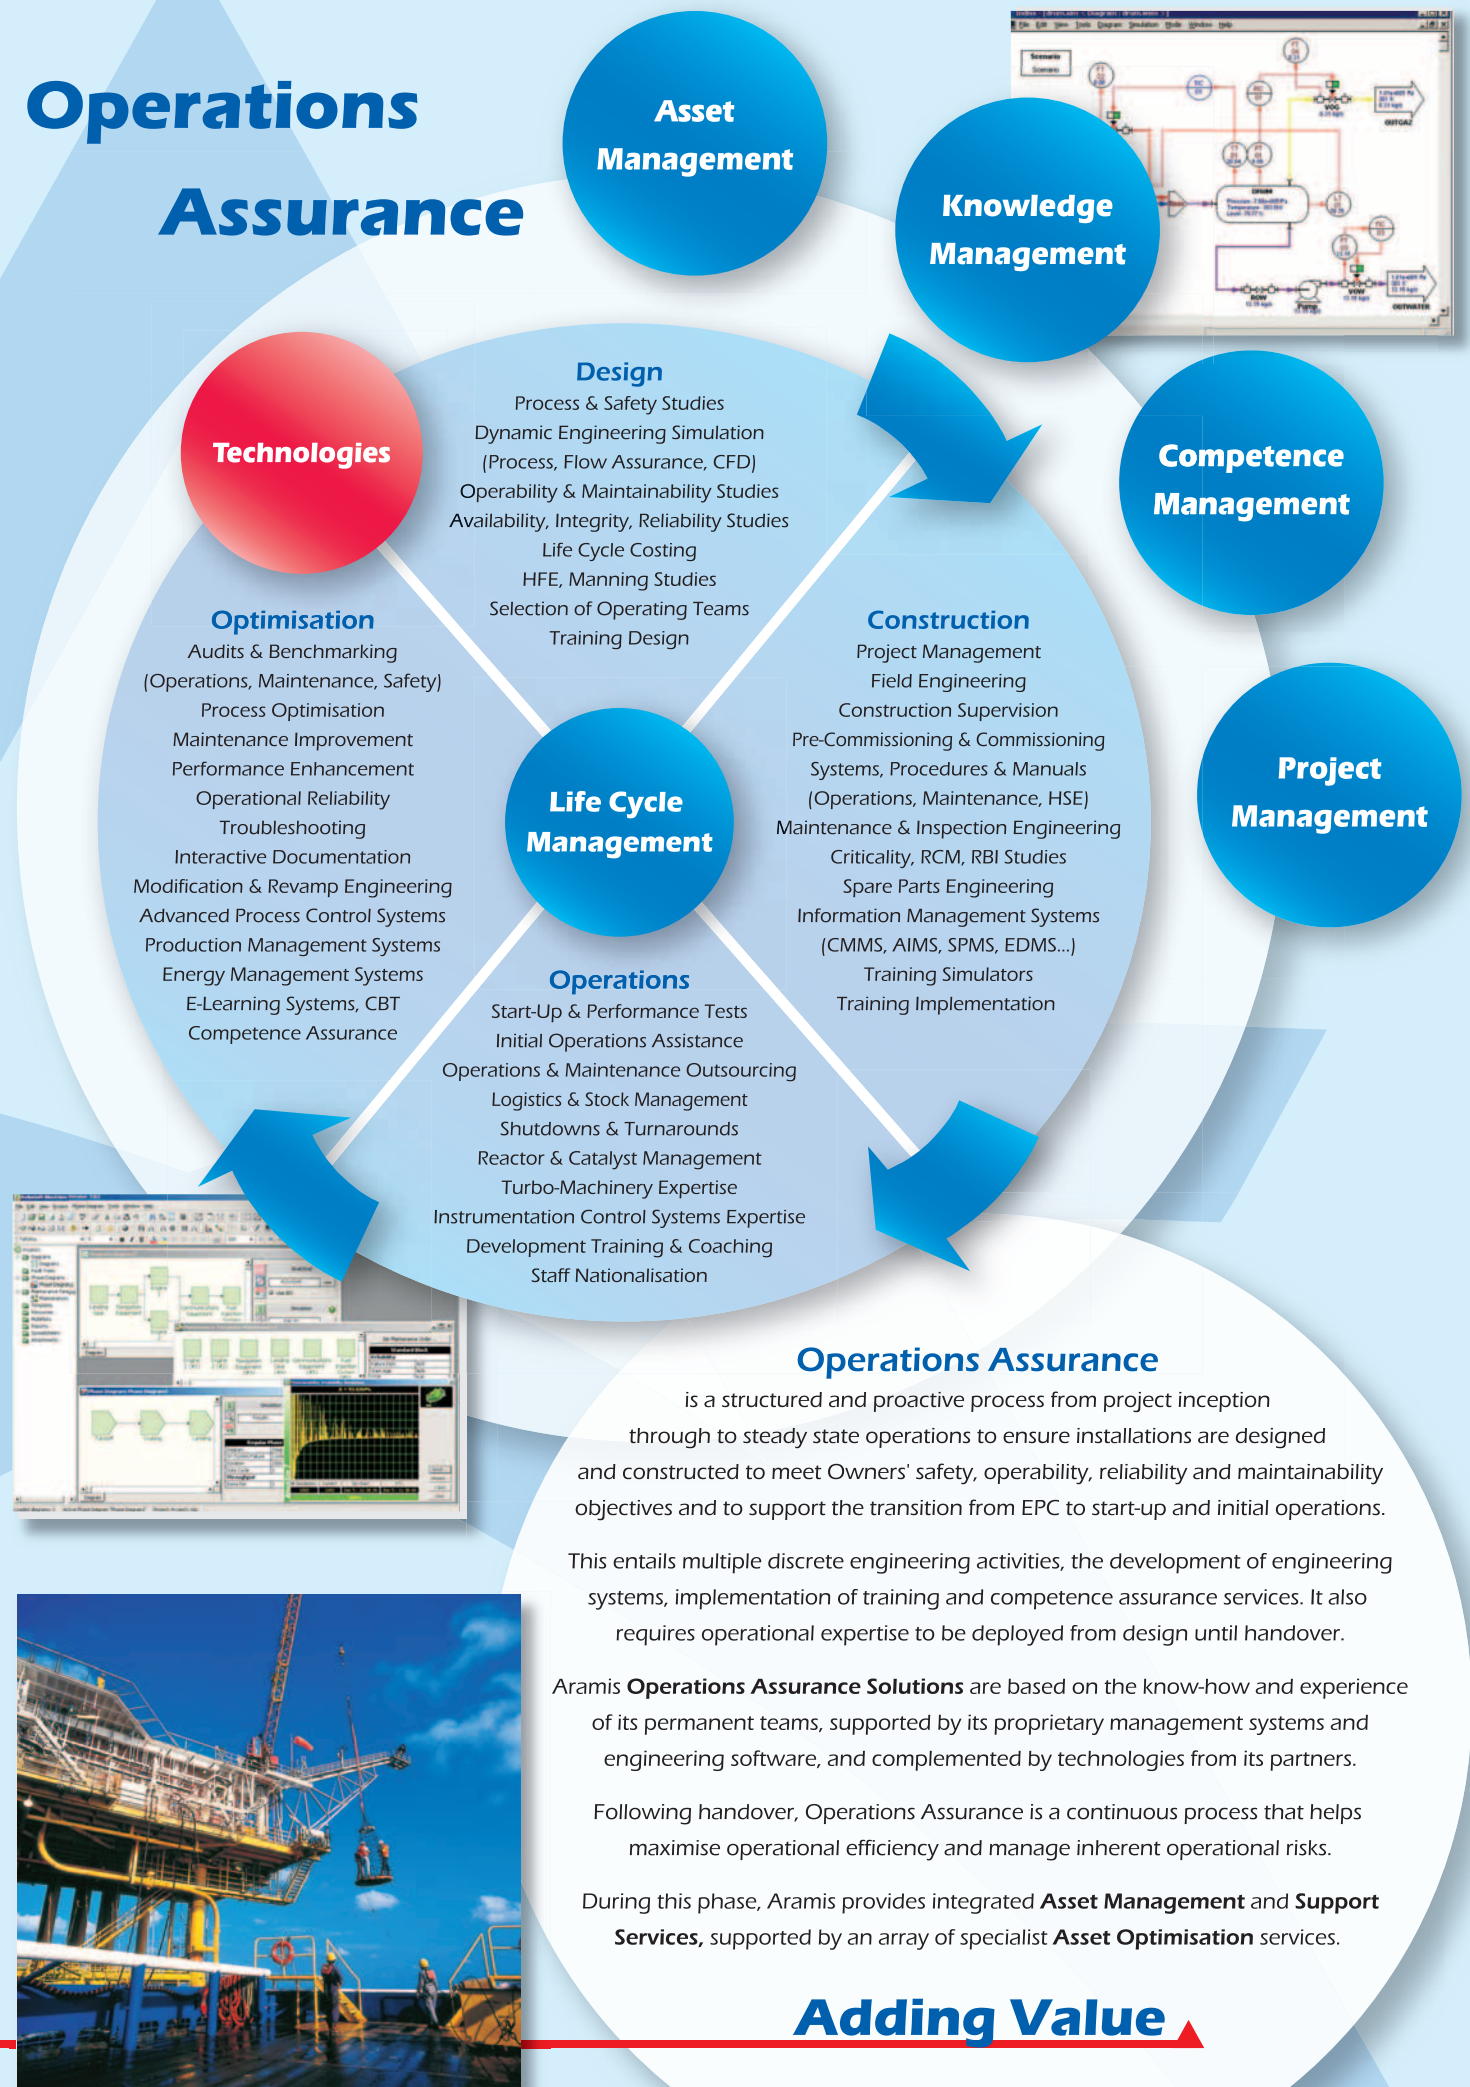

## ▲ EXCELLENCE

Through strategic alliances with internationally recognised technology partners, Aramis provides clients with the optimum route to success without compromise to safety, quality or the environment. Associations with proven local partners further complement the Aramis portfolio to offer a total turnkey asset management capability.
